- The package serves up the Career Key Sandwich, so you can help students make clearer, confident education and career choices and includes:
 - **An initial Career Decision Profile:**
a 5-minute, online, mobile-friendly survey you give students first. Use this diagnostic tool to understand student needs and barriers to taking action. Students learn about themselves and how to make progress. You'll use this information to follow up with personalized next steps.
 - **A Career Key Discovery Inventory:**
a 10-minute online, mobile-friendly personality and interest assessment that matches students to careers and postsecondary education programs where they're most likely to thrive.
 - **A second Career Decision Profile:**
after you work with and support students, they'll take this survey again, so together you can measure the impacts of advisory and student actions.
